durable. effective. filter.

Herding **BETA**

up to **160°C**

BENEFITS

HERDING BETA - UP TO 160°C

The patented Herding BETA provides proven Herding technology now for numerous applications in temperature ranges of up to 160°C. Due to the reliable separation, even of finest particles, only a very low residual dust concentration of $< 0.5 \text{ mg/Am}^3$ remains after filtration.

The Herding BETA is a dust Ex zone barrier according to VDI 2263 and has a high chemical and remarkable pH resistance (1-10). Sterilization is possible without any problems.

The filter elements are tested at a hundred percent rate and stand out due to the effective product separation on the surface - pure surface filtration with constant operation conditions.

**CONTINUOUS TEMPERATURE
UP TO 160°C**

**COMPACT
DESIGN**

**RESISTANT AGAINST
HYDROLYSIS AND CHEMICALS**

**ENERGY EFFICIENCY DUE TO
LOW CLEANING PRESSURE**

**FOOD
COMPLIANT ***

**DURABLE
LONG SERVICE LIFE**

**PRODUCT RECOVERY
WITHOUT CONTAMINATION**

**CONSTANT OPERATING
CONDITIONS**

FILTER ELEMENT HEAD

PREPREG head frame
made from one piece

Molded to filter body

RFID Transponder &
Serialnumber

FILTER BODY

Sintered PPS
(Polyphenylene sulfide)

Compact rigid body

Self-extinguishing material

Surface coating

Microporous PTFE layer
embedded into filter body surface

FILTER GASKET

Proven, temperature
resistant design

FILTER FOOT

One sintered body

One elongation

One material

HERDING BETA - PURE PRODUCTIVITY

Herding® filter technology protects man and machine. It serves occupational and environmental safety as well as recovers valuable material from the process. Lowest clean gas values, constant operating conditions, highest availability and energy efficiency are the characteristics of the innovative technology.

We produce the patented sinter-plate filter media as well as complete standard filter units (standard or customized design) in our own manufacturing facilities.

HERDING MAXX

For very high
air flows

HERDING PROCESS

The series for highest expectations

HERDING RESIST

For applications with
high requirements on
pressure resistance
and easy cleanability
